

ADSS Hardware

ALUMINUM ADSS SUSPENSION CLAM, 9-11MM CABLE #ASC-C02PAUV

The Plastic Suspension Clamp is a crucial fitting in FTTx aerial deployments, primarily designed to support and secure ADSS cables during suspension installation.

FEATURES

- The cushioned insert gently grips the cable without causing damage
- The UV resistant rubber insert provides longevity in all kinds of harsh environments
- Installation with 3/4" banding

SPECIFICATIONS

Items	Specs
