

Line Construction Hardware

GUY CLAMP, WITH 2x1/2" ROUND END BOLTS

#HW-WPCB1A

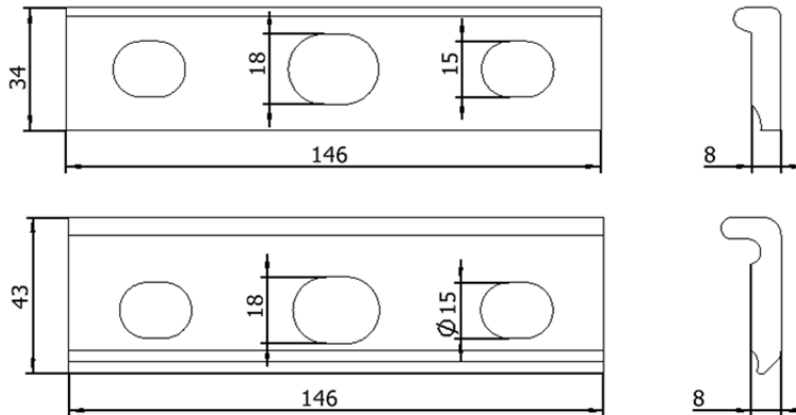

This is a heavy-duty poleline hardware component designed specifically to attach strands to straight line poles. Engineered for reliability, this clamp provides a secure grip on messenger wires in telecommunications and power distribution networks.

FEATURES

- Accommodates strand sizes 1/4" through 7/16"
- Clamp length is 146mm
- The center hole accepts 5/8" thru bolt
