

Drop Hardware

DROP CLAMP FOR FLAT FIBER OPTICAL CABLES, STAINLESS STEEL & PLASTIC SHIM

#MWC-01P

Fotux drop clamps serves as the primary anchoring device to secure flat fiber optic drop cables from distribution poles or splice closures directly to the subscriber's building facade.

FEATURES

- Clamp reaches 1.2kN tensile strength
- Stamped from Corrosion-resistant stainless steel
- Components are factory assembled

SPECIFICATIONS

Items	Specs
Material, metal	Corrosion-resistant stainless steel
Material, plastic	PA
Overall Dimension	185.5*12.4*22.7 mm
Thickness, retainer & plug	0.75 mm
Compatible Cable Type	2*3mm/2*5mm Drop Flat Cable
Weight	40 g
Working Load	1.2 kN
