## PLASTIC BUCKLE FOR 1/2" BAND

#PBB-S25

This is a fastening component designed to work with cut lengths of plastic band. It is primarily used in telecommunications infrastructure to support telephony cables by securing them to the messenger strand.

### FEATURES

- Consists of a high-strength molded plastic head with two sets of stamped teeth inserted on opposite ends for accepting opposite ends of strap
- High tensile strength after fastening
- Locking teeth in buckle are Corrosion-resistant Stainless Steel

### SPECIFICATIONS

Items	Specs 
Material, body	Acetal (UV Resistance Per ASTM G154, Halogen Free)
Material, lock	Corrosion-resistant stainless steel
Overall Dimension	21.5*19.0*12.5 mm
Compatible Band Width	12.7mm (1/2")
Operating Temperature	-40°C to +85°C
Flammability Rating	UL94 HB''
Packing	25 Units per bag
