## SUSPENSION CLAMP FOR FIGURE 8 CABLE, 4.5-8.0MM MESSENGER

#8SC-C02

This Suspension Clamp is a component for outdoor FTTx network deployments. It serves as a secure mid-span attachment point on utility poles, firmly gripping the messenger wire to prevent cable sagging and maintain proper tension along the optical route.

### FEATURES

- Two sets of locking bolts provide a stable and slip-free grip
- Built exactly to suspend and secure Figure-8 optical cables
- Made of weather-proof metals to survive long-term outdoor exposure

### SPECIFICATIONS

Items 	Specs 
Material, jaws	Aluminum
Material, hook	Galvanized steel
Overall Dimension	58.5*35.0*90.0 mm
Compatible Messenger Diameter	4.5 to 8.0 mm
Vertical Breaking Load	1.5 kN
Weight	88 g
